## PERSONAL PROJECT

---

### Course Project: OpenCV

3/2022

- Description: Introduction to OpenCV, test features like Face Recognition, Object Detection,...
- Technologies: Python

### Course Project: Credit Card Fraud Detection

6/2022

- Description: The dataset contains transactions made by credit cards by European cardholders. It is important that credit card companies are able to recognize fraudulent credit card transactions so that customers are not charged for items that they did not purchase.
- Technologies: Python
